RWANDA NATIONAL SPORTS PLATFORM · RNSP

The digital home of Rwandan sport — **every fixture, result and athlete, from the pro league to the school playground.**

1 THE PROBLEM

Rwandan sport — federations, leagues, clubs and thousands of school athletes — still runs on **paper and spreadsheets**. Results are slow, records are lost, verification is manual, and fans have no single place to follow it all. There is no digital backbone for a sector the country is investing in heavily.

2 THE SOLUTION

One **mobile-first platform** that digitizes the whole sports lifecycle: federation & team governance, player verification, fixtures, **live scores**, standings and discipline — plus a dedicated **inter-school** module (Amashuri / AKC3) and racing. Built for Rwanda: trilingual, offline-ready, inclusive by design.

6 THE ASK

We're seeking a **pilot with one federation or the schools programme (AKC3)**, and the partnership / support to become Rwanda's official sports infrastructure — the "Irembo for sport."

Pilot: one federation / AKC3

Partners: MINISPORTS · federations · sponsors
